## Recommendation

### To whom it may concern

By this letter, I fully recommend the promoting of the Dr. Ioan Dzitac, actually full professor of Artificial Intelligence & Distributed Systems at Aurel Vlaicu University of Arad, Romania, to the position of *full professor of Mathematics & Decision Support Systems at the Agora University of Oradea, Romania*.

Professor Dzitac, whom I have known since 2012, has been a professional, an academic and a researcher demonstrated outstanding and internationally recognized through all its scientific and professional contributions. In particular, the professor Dzitac was recognized like an Adjunct Professor of the School of Management, University of Chinese Academy of Sciences, China (2013-2016) and an Advisory Board Member of Graduate School of Management of Technology, Hoseo University (since 2016). He is founder and an Associate Editor in Chief of the International Journal of Computers, Communications and Control Journal indexed by ISI Web of Science and Scopus. Also he is co-founder and General Chair of International Conference on Computers Communications and Control and he was member of the Program Committee of more than 60 international conferences. Dr. Ioan Dzitac is member of International Academy of Information Technology and Quantitative Management (IAITQM) and Senior Member of IEEE – Computation Intelligence Society.

With the professor Dzitac, we have worked together like a special session organizer and chair of our International Conference on Information Technology and Quantitative Management in the period 2013-2016. He was an invited speaker and/or invited special sessions' organizer and chair in China (2013: Beijing, Suzhou and Chengdu, 2015: Dalian, 2016: Beijing), India (2014: Madurai), Russia (2014: Moscow), Brazil (2015: Rio), Lithuania (2015: Druskininkai), South Korea (2016: Asan). He has published 3 books, 12 courses and materials for students, 5 conference proceedings and more than 70 scientific papers in journals and conferences proceedings. For the reasons mentioned above and more, for me is a pleasure to recommend the promotion to full professor at Agora University of Oradea to the professor Dzitac.

Finally, I would also highlight the personal aspects, which not only makes him an excellent professor and researcher but a professional who leads and is fully integrated within the University community.

Prof. Yong Shi, Director
